The traffic authorities of Rajampet in their effort to guide students about traffic rules on Wednesday 21st January organized a workshop in Nist.

During the exercise, students were informed about various traffic rules which included those for owning a driving license, which in the case of students is not a valid option and is obtained through touts by faking the former's age.

They were also taught not to indulge in overspeeding while driving their two- wheelers and also requested to the college authorities to not allow students to enter the college premises with vehicles, if they are minors and thus, not eligible for a driving licence.

Students were advised to wear helmets and not to jump red light, which is a common offence among young people.
